Raw Basics, LLC. of Pleasant Prairie, WI is recalling 540lb of 5lb Pork-Bison Boxes because it has the potential to be contaminated with *Salmonella*. *Salmonella* can affect animals eating the products and there is risk to humans from handling contaminated pet products, especially if they have not thoroughly washed their hands after having contact with the products or any surfaces exposed to these products.

Healthy people infected with *Salmonella* should monitor themselves for some or all of the following symptoms: nausea, vomiting, diarrhea or bloody diarrhea, abdominal cramping and fever. Rarely, *Salmonella* can result in more serious ailments, including arterial infections, endocarditis, arthritis, muscle pain, eye irritation, and urinary tract symptoms. Consumers exhibiting these signs after having contact with this product should contact their healthcare providers.

Pets with *Salmonella* infections may be lethargic and have diarrhea or bloody diarrhea, fever, and vomiting. Some pets will have only decreased appetite, fever and abdominal pain. Infected but otherwise healthy pets can be carriers and infect other animals or humans. If your pet has consumed the recalled product and has these symptoms, please contact your veterinarian.

This recall is being issued after our firm was notified by the Nebraska Department of Agriculture of the positive *Salmonella* finding. Product affected was isolated to 1 lot of 540 lbs (108 boxes) and distributed to distributors in Minnesota, Georgia, Kansas, and Pennsylvania. These products were sold at pet specialty retail stores. No illnesses have been reported to date.

Product is packaged in 5lb Frozen Boxes labeled Tucker's Pork-Bison-Formula.

Raw Basics tests all batches of products for all pathogens in a hold and release program before releasing for shipping.

Consumers who have purchased Tucker's 5lb Pork-Bison Boxes are urged to return it to the place of purchase for a full refund. Consumers with questions may contact the company at 1-800-219-3650.
