

Hill's Pet Nutrition, Inc., Announces An Update On The Voluntary Participation in Menu Foods' Nationwide U.S. recall of Specific Canned Cat Foods.

Topeka, Kansas (March 27, 2007) - As you know, Hill's makes all of its products with an overriding commitment to the health and well-being of pets. With this in mind, on March 21 we notified you of our decision to issue a voluntary precautionary recall of a very small number of canned cat food products in the United States that were manufactured by Menu Foods, which had announced a recall. This involved a very small portion of Hill's total product line.

To ensure that our customers continue to have absolute confidence in all of Hill's products, Hill's has decided to voluntarily withdraw from the market all Science Diet® Savory Cuts® Feline products.

THESE ARE THE ONLY PRODUCTS PRODUCED BY MENU FOODS FOR HILLS PET NUTRITION. NO OTHER HILL'S SCIENCE DIET PRODUCTS AND NO PRESCRIPTION DIET PRODUCTS ARE AFFECTED.

The following is a list of the Science Diet Savory Cuts Feline products affected:
